

MediaSprint SD – for short-throw projectors

**NEU
NEW**

The **MediaSprint SD** can be anywhere where LCD projectors with a so-called ultra-wide angle are used for presentations.

- The container is inclined towards the front that the beam path of the projector is not affected
- Cable outlet sockets: 1x in container side, 1x in top shelf for easy retraction of cables
- Shelves in adjustable heights with cable outlet socket
- The lockable doors can be rotated by 270°
- Mobility with 4 castors, Ø 75 mm (2 lockable)
- Dimensions H/W/D:
82.5 open/60/60.1 cm
- Weight: 34 kg

MediaSprint SD container - brushed aluminium

Code No. 1893-ALU

MediaSprint SD container - light-grey

Code No. 1893-GREY

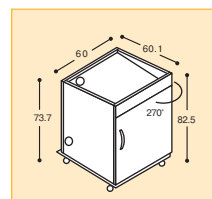

Special equipment and solutions are available upon request

The inclined design allows use with projectors that have a flat viewing angle
