

MediaSprint RackCaddy – an attractive solution for 19" units

This product is based on the basic housing of the MediaSprint L (refer to page 106) but without side handles

- Using the **Adam-Hall rails**, up to a total of 12 height units (1 HU = 1" or 2.54 cm) of equipment with different functions can be individually set to the required height
- The items of equipment can be simply cabled and connected with each other on the back
- The detachable, sturdy punched sheet panel enables simple access

- Multi-socket and 2 cable outlet sockets integrated in the container
- Good mobility thanks to the standard set of 75 mm castors
Dimensions H/W/D: 105/53/67 cm
- Weight (basic model) approx. 40 kg

MediaSprint RackCaddy
Polished aluminium container/
matt chrome shutter
Code No. 1891-ALU

MediaSprint RackCaddy
Light-grey container
(similar to RAL 7035)/
matt chrome shutter
